Subject: UBER

To whom it may concern,

When I stay at City Marina in Charleston, I've always had difficulty getting Taxi service, until this year when I used UBER. I called for a cab, they said it would be there in 3 minutes, what the driver's name was, and what she would be driving. The cab was there in 3 minutes, we were dropped off downtown, and in about 5 minutes, I received an email invoice, charged to my account. Cash and tip were not necessary. On the return trip I had a similar experience.

If you REALLY REPRESENT THE PUBLIC, please allow UBER to continue serving the consumer.

**Subject:** South Carolina Needs Uber!

To Whom It May Concern,

Über is much needed in South Carolina! I'm originally from Charleston, SC and have recently moved back home from living in NYC for the past 12 years. One huge reason of why I left SC was because of the lack of progression of the state moving forward. Each year, I would come back to visit I started seeing change and new opportunities. When I saw that Uber was in Charleston, I was overjoyed and it played a big factor in me moving back.

While living in NYC, my friends and I used Uber constantly. It was our go to on the weekends and sometimes during the week. Uber provided us an option to a regular taxi, and convenience. Just this past holiday my 71 year old mother was going to a holiday party late at night and I called Uber for her and she loved it!

Taking away a much needed alternate mode of transportation for a growing city such as Charleston is completely insane and shows me the PSC is not interested in moving this state forward but backwards. Charleston is visited by thousands of people each day and those visitors are staying. Having uber in SC is progressive and giving jobs to veterans. My mother worked at the VA for over 25 yrs and her and her driver bonded because he told her Uber provided him a 2nd income. Taking Uber away shows a complete disregard for others and the direction this state needs to go in to be successful.

Please reconsider this ban and think about the many lives it effects. As a citizen, I have a right to choose many things and I want the option to have uber in my state.

Thank you,

Kia Williams

I object to the limitation and potential disallowing of UBER In SC,

Are we so behind in our use of technology here that we cannot allow an innovative service like UBER to co exist,

You are showing a very bad opinion of your confidence in your constituents to make our own choices,

Let us choose, this is a very scary decision

The customer service received by Uber is superior in all aspects to taxis. It is about time taxis had some real competition. If anything the taxi companies need a cease and desist order. The danger that other drivers and taxi passengers incur due to the self-insured claims process is awful. Protect the people from taxis by allowing the competition from better companies to weed them out. Remove the cease and desist on Uber.

Richard
